## § 773.17

(g) The applicant has paid all reclamation fees from previous and existing operations as required by subchapter R of this chapter.

(h) The applicant has satisfied the applicable requirements of part 785 of this chapter.

(l) For a proposed remining operation where the applicant intends to reclaim in accordance with the requirements of §816.106 or §817.106 of this chapter, the site of the operation is a *previously mined area* as defined in §701.5 of this chapter.

(m) For permits to be issued under §785.25 of this chapter, the permit application must contain:

- (i) Lands eligible for remining;
- (ii) An identification of the potential environmental and safety problems related to prior mining activity which could reasonably be anticipated to occur at the site; and
- (iii) Mitigation plans to sufficiently address these potential environmental and safety problems so that reclamation as required by the applicable requirements of the regulatory program can be accomplished.

(n) The applicant is eligible to receive a permit, based on the reviews

under §§773.7 through 773.14 of this part.
